951		Feedback	Bug	Pri slido otazkach sa nezobrazuje best label ak som ucitel	Jozef Harinek	2014-03-08		0
<p>Ked ucitel odpovie slido otazku, nezobrazi sa mi label ze odpoved je oznacena ako best. V zozname otazok ukazuje, ze best answer otazka ma, ked si ju ale rozkliknem, uz to tak nevidim. Problem je v tejto podmienke: <a href="https://github.com/pavolzbell/askalot/blob/1-1-beta/app/views/answers/_labeling.html.erb#L4">https://github.com/pavolzbell/askalot/blob/1-1-beta/app/views/answers/_labeling.html.erb#L4</a> Pretoze ak som iny ucitel, ako ten co odpovedal otazku, mam sice prava na labelovanie, ale neozncil som ju ako best, tak mi teda ukaze to co je pod else. Podla mna by sme podmienku mali zmenit na answer.best? , avsak nie som si isty ci tym nieco nepokazim. Nenapada mi nic co by sa tym mohlo pokazit, ale zamyslite sa aj vy, ostatni.</p> <p>Ak som student, best vidim v pohode.</p>

Ahoj Ivan, dnes priesil tento mail, porad ako postupovat:

Ahojte, my sme študenti z Ekonomickej univerzity a 17.2. sme videli prezentáciu Vášho projektu ASKALOT, s ktorým by sme chceli pracovať v rámci predmetu Podnikanie v praxi a vytvoriť jeho biznis model. Chceli by sme ho aplikovať aj pre našu školu a preto by sme chceli vedieť čo všetko je potrebné pre vytvorenie takéhoto systému a pre jeho následnú údržbu. Vedeli by ste nám dať odhad toho, koľko by to vytvorenie cca stálo? A rovnako je možné od Vás získať nejaké prístupové údaje?

Ďakujeme, s pozdravom  
Alexandra, Veronika, Matúš.

prvá ktorú treba urobiť vymyslieť názov toho fieldu ktorý sa bude končiť \_at (touched\_at)

treba pridať field do DB (questions) a podľa neho nech sa tie otázky zoradia

to znamená, že keď sa pridá nový komentár alebo odpoveď tak sa tento atribút updatne a ten pomôže k tomu zoradeniu
