

Sprint 5 retrospective - End of winter term

What did we like?

- Communication is much better in slack
- We had standups during the week
- Continuous work on team project
- We started to use git flow properly

Karol / Vlado

- Team started to work at the last week

What we did not like?

- We didnt work as much in the first week as in second one
- The methods were not properly defined, they need more work

Karol / Vlado

- Tatra bank did not choose us for grant

What should we improve?

- We should improve the methodics (formatting etc.)
- We should have a presentation about code styling and how to use it
- consider editorconfig
- add new swimlane into task lifecycle (Review)
- improve DoD
- We should write tests for our applications

Karol / Vlado

- consider JOI.js / winston.js / fastify
